LEAFLET FOR UKRAINIAN REFUGEES

Ukrainian war refugees do not need a residence permit retrospectively from 24.02.2022 up to 31.08.2022.

Nevertheless, the Foreigner Registration Office politely asks all war refugees, who entered from the Ukraine and who live in the county, to first register themselves on the homepage "Self-Report War Refugees Ukraine" provided by the district of Rosenheim. Only then you can receive money or a work permit from us.

We will write you in the next few weeks to coordinate an appointment with you. Please come to the Rosenheim District Office and also bring your Identification Documents. You then will be centrally registered and will be able to apply for granting of a residence permit. For the permit we need your identification documents, fingerprints and a photograph of you will be taken. Your application will immediately be examined and you will receive a temporary residence permit and work permit when you belong to the eligible group.

As soon as we have received your data via the self-registration form, our in-house office will be informed automatically and in case you are not able to support yourself you will receive money. You will receive a form from this office which you must please fill out and send back to us. Approximately a week later you will get the money. Important is that you provide us with a bank account where we can transfer the money to. If you do not have a bank account in Germany you can receive the money in cash.

Only those people who have received money from us will get a health certificate with which you can go to a doctor for free.

If you are living with acquaintances/friends/family and are not able to stay longer with them, you can look for an apartment yourself and conclude a rental contract. If you cannot pay for the apartment yourself, you must please apply for asylum seeker benefits at the Rosenheim District Office. Or you can go to the ANKER Center in Munich, Maria-Probst-Straße 14. The staff employees there will help you find accommodation.
